To Whom it may concern

I have worked with Mark Nielsen of Angelo Engineering from Nov 2010 to date in my positions as Maintenance Manager Graham Group, Engineering Manager NSW Industrial Galvanisers, Engineering and Reliability Coordinator BlueScope Steel Chullora Site and as Reliability Team Leader Murray Goulburn Erskine Park Site.

In my Association with Mark and Angelo Engineering we designed and manufactured Gears, carried out correct material identification and processes to replace OEM parts, carried out various Machining including the manufacture of Crane Long Travel Wheels.

In partnership with him we designed manufactured Steel Bore jacks.

I found dealings with Angelo Engineering always professional and customer oriented.

The service provided was exceptional including responses after hours, and visiting sites at various hours of the day and ability to deliver urgent manufactured components timely and personally delivered.

We also found his charges cost effective and reasonable

I have no hesitation to Recommend Mark Nielsen and Angelo Engineering to any niche Engineering requirement.

Sincerely,

Danny Sandaradura BSc Eng. ; C Eng.
