To whom it may concern,

I have known Mark Nelsen for 30 years. You will not find a more genuine, honest, knowledgeable, capable, hardworking person than this man!

I have used his services many times and he has always delivered exactly what I have asked for, within budget and on time. He also guarantees and provides whatever support is necessary during the task at hand and when the task is completed without any fuss or issues.

I would highly recommend Mark Nelsen at Angelo Engineering to any job whether it be to modify a small item to design, manufacture and install/commission a machine or special purpose piece of equipment that you may need done.

Yours Sincerely

Peter Tononcelli
